

ARUN C S

SOFTWARE DEVELOPER | COMPUTER SCIENCE UNDERGRADUATE

+91 7592912624 aruncs2624@gmail.com LinkedIn GitHub Ernakulam, Kerala

PROFILE

Computer Science undergraduate with hands-on experience in Python, Django and web application development. Strong foundation in software engineering, database management, and Artificial Intelligence & Machine Learning. Passionate about building efficient software solutions, solving real-world problems, and continuously learning emerging technologies

SKILLS

Programming Languages

• Python • C • SQL • Java

Frontend Development

• HTML5 • CSS • Bootstrap • JavaScript

Backend Development

• Django • Django REST Framework

Database

• MySQL

AI/Machine Learning

• NumPy • Pandas • Matplotlib

Developer Tools

• GitHub • VS Code

LANGUAGES

• English • Malayalam
• Hindi • Tamil

LEADERSHIP & ACTIVITIES

- Class Representative
- NSS Volunteer
- Member, College Volleyball Team
- Active Hackathon Participant

EDUCATION

B.Tech in Computer Science & Engineering

Toch Institute of Science & Technology (TIST)
2023 – 2027 | Arakkunnam, Kerala
CGPA: 8.68

Class 12

Lourde Matha Higher Secondary School (Kerala HSE)
2021 – 2023 | Mangalam Dam, Kerala

Class 10

Lourde Matha Higher Secondary School (Kerala SSLC)
2020– 2021 | Mangalam Dam, Kerala
Percentage: 97.5 %

ACHIEVEMENTS & RECOGNITION

- Cognizant Technoverse Hackathon 2026 – Shortlisted
- Web Aakrithi Website Development Competition (Jabagadadhas 6.0) – Second Place
- 60-hour AI, ML, DL & LLM Professional Training – Completed
- IBM SkillsBuild Project-Based Learning Program – Completed

SELECTED PROJECTS

• Career Reality Check

Developed a Django-based career guidance platform providing personalized career insights, assessments, and comparisons using occupational data.

Tech: Python, Django, Groq API, BeautifulSoup, SQLite

• Brain Tumor Detection Using CNN

Built a CNN model to detect brain tumors from MRI images with image preprocessing and performance evaluation.

Tech: Python, TensorFlow, Keras, NumPy, Matplotlib

• Food Cart

Developed a responsive food ordering web application with user authentication and cart management.

Tech: Python, Django, HTML, CSS, JavaScript, SQLite

CERTIFICATIONS

- Django Masterclass – Udemy
- Next-Generation Artificial Intelligence, Machine Learning, Deep Learning & Large Language Models
- IBM SkillsBuild – Front-End Web Development
- Infosys Springboard – C Programming
- Python Programming Workshop (5 Days) – Aesthetix Edu-Tech

INTERNSHIP

Industry Internship Program

Freston Analytics Pvt. Ltd. | June 2024 – July 2024

- Trained in Python, Git, Docker, Linux, cloud platforms, and web development through hands-on tasks and practical exercises.
- Applied these technologies to strengthen software development, project planning, teamwork, and professional communication skills.

COURSEWORK

Data Structures & Algorithms | Object-Oriented Programming | Database Management Systems
Operating Systems | Computer Networks | Software Engineering
